About Us

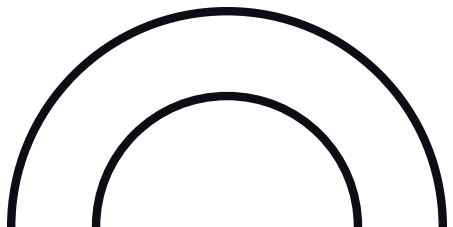

We are a firm of **more than 50 years in business**, with vast experience in legal and accounting advice and legal disputes, as well as extensive knowledge on judicial and extrajudicial proceedings for local and foreign enterprises. We have **one of the biggest infrastructures of this sector** in the inland of the country.

We are convinced that **the human element is essential to gain the trust of clients**, so that they can seek counsel with us regarding their legal, business, and financial situation, trying to always gain their loyalty.

We are a **results-oriented organization and we are leaders** in the area of applying new technologies that will benefit the customer. We are dedicated to our clients, to whom we owe absolute commitment and loyalty. We believe that transparency and information are essential elements to maintain a connection with our clients.

We are a team with **more than thirty professionals**, with specialists in different areas, where each team member fulfills a specific task and is constantly trained to do their best performance at work.

To confront new challenges **we are constantly growing**. This allows us to ensure as much efficiency as possible in the use of resources in order to carry out the job entrusted to us with high efficiency.

Our Culture

VALUES

Excellence, commitment and loyalty.

VISION

We want to be an integral legal and accounting solution for individuals and companies. We want to perform as leaders in the Province of Cordoba and in the inland of Argentina regarding the quality and efficacy of our offered services.

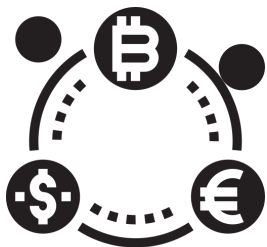

MISSION

We want to grow in a sustainable way to be capable of offering the dedication and services that our clients deserve. Continuously take a stance at the vanguard of law through constant training and the implementation of services and new technologies.

What Makes Us Different

WE KNOW THAT OUR COMPANY CAN LIVE UP TO THE DEMANDS OF YOUR COMPANY AND WE COMMIT OURSELVES TO TAKE IT TO THE NEXT LEVEL, WITH **EXCELLENCY, COMMITMENT AND LOYALTY**.

We consider ourselves another sector of the companies we counsel, so we ensure that our **processes and proceedings adapt to those of our clients**. We do this in a customized way since we know that each client is different. This is why we are in constant internal audit regarding our processes to improve our efficiency and our efficacy.

On a monthly basis, we inform our clients about all the management we have done. The monthly report shows every movement done during that month, the activities done for each client and the professional time taken for each activity. This way the client can have a record of all the work done in real time.

We have an online case management system. This system allows a more precise follow up of the cases to be managed. Additionally, for each case we give to the clients a track number and an access password to follow in real time the activity of our professionals, and so, in case of finding a problem, they are able to report it.

We train our clients based on our monthly analysis of the different procedures entrusted to us. We are able to identify in a company the vulnerabilities produced by uncertainty or a lack of knowledge about legal matters and implications. With our specialized training in each sector, we are able to handle those vulnerabilities.

What Makes Us Different

We have **more than 30 specialized professionals in different law and accounting sectors**, which are prepared to give their best counsel to our clients.

Because **we understand our social responsibility**, we keep in contact with our community by organizing different types of events and implementing a PRO BONO program so those who are in economic hardship can have access to justice. One of our values is COMMITMENT and we abide by it.

We are in the process of applying **sustainable practices to protect the environment**.

We are proud to say that we use 95 % of recycled paper in our offices. We separate our waste, we have low energy consumption and we are implementing a digitalization protocol to reduce the use of paper.

We are members of LATAM LEGAL, an organization that works in Latin America seeking to eliminate the borders and to make international investment viable.

We have a Backup Program for small companies which aims to **support SMEs in their sustainable growth**.

A modern living and office space. On the left, a grey sofa sits on a dark rug in front of a large window with vertical blinds. A floor lamp with a curved arm and a grey shade stands next to the sofa. A Marshall amplifier is on the floor near the lamp. In the center, a dark coffee table with a metal frame holds a stack of books. To the right, a wooden desk with a glass top is illuminated by a track light. A black office chair is in front of the desk. A large world map is on the wall behind the desk. The floor is made of light-colored wood.

Let's work together
